

Job title

Journeyman Heavy Equipment Technician

Reports To

Equipment Superintendent

About Duz Cho Group of Companies

We are a proudly Indigenous owned company, best known for our focus on consistently delivering industrial expertise to natural resource projects within our Traditional Territory and beyond. We operate our businesses to provide sustainable employment to support our community, and to earn respect from our key stakeholders.

About the Role

We are looking for a Journeyman HET Mechanic to keep up our level of commitment to safety and service. Responsible for providing quality workmanship, consistent service, and technical knowledge to the customers. Performs all tasks related to the testing, diagnosing, repair, maintenance, and reconditioning of heavy equipment, transmissions, engines (gasoline and diesel), and engine components typically on-site at customer or roadside assistance.

Duties

- Inspect and diagnose components and equipment for servicing needs.
- Communicate with Supervisor for authorization of servicing and repairs as required.
- Service and repair equipment in the shop and on-site for the customer.
- Recondition and remanufacture components as required for equipment, engine, and hydraulic repairs.
- Establish and maintain strong working relationships.
- Communicate equipment servicing needs as required with Supervisor/Manager.
- Communicate work performed and complete service paperwork.
- Update and maintain service records.
- Fill out warranty information.
- Complete work orders.
- Participate in all required Health & Safety Training.
- Comply with the Health & Safety program and practices.
- Performance of daily duties in a manner conducive to a safe workplace.
- Work with Manufacturers online support.
- Maintain good housekeeping.
- Always maintain a professional company image.
- Meet requirements of Field Level Hazard and Job Hazard assessments
- Where required tests, measures, and verifies electrical component operations, including energized components and electrical fields; conducts building transfer tests to confirm correct operation of transfer switches, breakers, and generator units.

Qualifications & Skills

- Red Seal Journeyman Heavy Equipment Technician preferred.
- A minimum of 2-year post qualification experience as a HET Technician.
- In-depth knowledge of vehicle systems, such as hydraulics, air brakes, and electrical systems.
- Extensive experience with vehicle diagnostic equipment.
- Exceptional understanding of mechanical and technical information.
- Strong verbal and written communication skills.
- Excellent interpersonal skills.
- Manual dexterity, experience with hand tools, and physical strength.
- Valid Drivers License, with clear drivers abstract.

Schedule

- Full-time position with a 7 on 7 off rotation, working 12-hour shifts.

Wages

- Overtime compensation for any hours worked beyond 8 hours daily.
- Comprehensive benefits package available after three months of employment.
- Hourly wage based on experience, ranging from \$45 per hour to \$50 per hour.
